

## **MEMORY-MAP GPS NAVIGATION SOFTWARE**

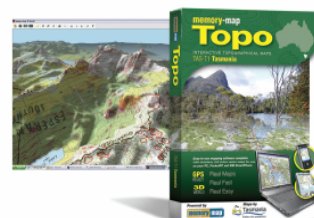

**Memory-Map is a leading brand in recreational mapping software tailored for outdoor pursuits.**

**Memory-Map publishes a wide range of mapping software products for many parts of the world.**

**Memory-Map software is included as standard with all branded mapping products at no additional cost. This is the fully featured software that drives everything.**

Used by thousands of outdoor enthusiasts and sailors across the world. Memory-Map boasts award winning software, the largest range of maps and charts and is compatible with a wide range of Mobile Devices and handheld GPSs.

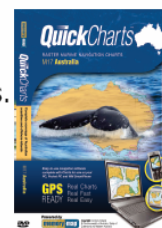

**Topo:** The ultimate bushwalking, hunting & outdoor companion. Includes a comprehensive selection of maps and map data. Available by State for Australia and by Island in New Zealand in Standard or Premium editions. The Standard edition comprises the the latest digital topographic mapping for New Zealand and is an economic option with all the essentials included. In addition to topographical maps, the Premium edition includes aerial photography and street maps to help in the detail of route planning.

**Tour:** A must have for the long distance explorer in Australia. This combo map pack comprises a detailed topographical map covering every inch of Australia together with the acclaimed Outback Tracks Map from Westprint and the UBD street directories for nearly 600 towns and cities across Australia.

**Marine:** A sensibly priced PC charting package tailored for leisure marine users. Memory-Map has precisely calibrated AHO charts and published them in regional CD packs.

### **Special Discount Offer**

We are pleased to offer all of our customers a special 20% discount on copies of Memory-Map software products and GPS accessories (see order form below)
